RSNF OFFICERS AND CADETS SEA TRAINING IN PAKISTAN NAVY

Pakistan and Saudi Arabia have long enjoyed robust collaboration in military training. Royal Saudi Navy Cadets frequently undergo training at various PN training units, Ships and Aviation Squadrons.

96 x Royal Saudi Naval Forces (RSNF) trainees from the King Fahad Naval Academy completed comprehensive sea training. They went through modules of tactics, weapon handling, combat training, navigation, naval operations and seamanship. A familiarization tour to Naval Aviation was also arranged.

On culmination, a working lunch was held with RSNF Officers and Cadets. Commander Pakistan Fleet, Vice Admiral Muhammad Faisal Abbasi HI(M) graced the occasion as Chief Guest (CG). The CG interacted with the cadets and discussed various topics pertaining to training and collaboration of both brotherly countries.

The training was a resounding success, providing RSNF cadets with a valuable opportunity to learn from the senior naval leadership of Pakistan Navy.

The collaboration also underscores the multifaceted defence relations between Pakistan and Saudi Arabia. It serves as a testament to the mutual commitment to enhance military capabilities and strategic cooperation, thus reflecting a shared vision.
